CS 200 Algorithm Analysis Exam 1C

Name: _____

- This is a closed book exam; only 1 sheet (both sides) of handwritten notes is permitted.

- No calculators, no computers, no phones, no electronics.

- You will have 50 minutes for this exam.

- Make sure you have answered all problems before moving on to the bonus problem.

Instruction

This exam contains 7 questions, 8 pages (including the cover) for a total of 65 points. Your score will be taken out of 60 points maximum.

Work as many problems as possible. When presenting an algorithm, provide a short preliminary explanation of how it works before a formal description, and use examples or diagrams if they are needed to make your presentation clear. Please be concise and give well-organized explanations. Rambling or poorly written/organized explanations, which are difficult to follow, will receive less credit.
